## INDEX OF SUBJECTS

- Acetylsalicylic acid  
as a cause of unexpected bleeding during operation (Davies and Steward), 452
- pulmonary vascular effects of, given after haemorrhagic shock in dogs (Noble, Famewo and Garvey), 661
- Acid-base equilibrium  
acidosis, effect of reduction of hypoxic pulmonary vasoconstriction by diethyl-ether in isolated perfused cat lung (Hurtig, Tait and Sykes), 433
- Acidosis, see Acid-base equilibrium
- Acupuncture, Chinese (Wyant and Camerlain), 75
- Airway, nasal intubation, technique to avoid complications (Fry, Letter to Editor), 144
- Alkalosis, see Acid-base equilibrium, acidosis
- Alpha-Bungarotoxin, post-junctional block by (Lee, Chen & Katz), 212
- Althesin, see Anaesthetics, intravenous, steroid
- Alveolus, see Lung
- Aminophylline, for correction of haemodynamic repercussions of clamping the aorta (Pottecher and Meloche), 162
- Anaesthesia  
acupuncture, 80  
anaesthetic considerations in management of acute epiglottitis in children with nasotracheal intubation (Blanc, *et al.*, 1  
early history of anaesthesia in Canada: the introduction of ether to Upper Canada, 1847 (Steward), 153  
effect of positive end-expiratory pressure on lung compliance during (Douglas and Finlayson), 425  
effect on regional cerebral blood flow in the goat (Gil, *et al.*), 717  
fluidics and pneumatics, principles and applications in anaesthesia (Duffin), 126  
for trans-sphenoidal hypophysectomy (Côté and Rouillard, Letter to Editor), 273, (Newfield, *et al.*, Letter to Editor), 734  
induction, clinical trial of etomidate (Famewo and Odugbesan), 35  
obstetric  
foetal deterioration following thiopentone-nitrous oxide anaesthesia in the pregnant ewe (Polahniuk and Cumming), 361  
methoxyflurane, nitrous oxide and lumbar epidural, for Caesarean sec-
- tion, comparison of maternal and neonatal effects (Polahniuk), 586
- outpatient  
paediatric, enflurane for (Steward), 603  
recovery from, narcotic and inhalation techniques compared (Enright and Pace-Florida), 618  
techniques used in outpatient unit, evaluation (Urbach and Edelist), 401
- Anaesthetic techniques  
hypotension, induced  
circulatory monitoring using a carbon-dioxide analyzer during (Greenway, Heineman and Keeri-Szanto), 282
- sodium nitroprusside and lidocaine in anaesthetic management of pheochromocytoma (El-Naggar, Suerte and Rosenthal), 353
- sodium nitroprusside and trimetaphan, effect on neuromuscular transmission in the frog (Gergis, Sokoll and Rubbo), 220
- sodium nitroprusside and trimetaphan, effect on neuromuscular transmission in the frog (Gergis, Sokoll and Rubbo), 220
- sodium nitroprusside, cyanide toxicity following (Aitken, *et al.*), 651
- sodium nitroprusside, effect on renal blood flow (Leighton, Bruce and MacLeod), 637
- sodium nitroprusside, factors which attenuate its action, studies with isolated gracilis muscle of the dog (Tremblay *et al.*), 641
- trimetaphan, effect on neuromuscular transmission in the frog (Gergis, Sokoll and Rubbo), 220
- hypothermia, for open heart surgery in infancy (Wakusawa, Shibata and Okada), 491
- inhalation, recovery time compared with narcotics in outpatients (Enright and Pace-Florida), 618
- peridural  
epidural, comparison of etidocaine and lidocaine in, for surgery (Rakasmani and Edelist), 70
- lumbar epidural anaesthesia for Caesarean section, maternal and neonatal effects of, compared with methoxyflurane, nitrous oxide (Polahniuk, *et al.*), 586

- regional  
neuromuscular block, by circulating d-tubocurarine residue following uptake and distribution (Yang and Lee), 468  
neuromuscular block, non-depolarizing, characteristics (Lee, Chen and Katz), 212  
sympathetic blockade of isolated limbs by intravenous guanethidine (Holland, Davies and Wallace), 597
- Anaesthetics
- gases  
nitrous oxide anaesthesia for Caesarean section, maternal and neonatal effects, compared with methoxyflurane and lumbar epidural anaesthesia (Palahniuk, *et al.*), 586  
nitrous oxide, peripheral vascular and cardiac effects of, in the bovine (Lunn, *et al.*), 571  
nitrous oxide, reduction of hypoxic pulmonary vasoconstriction by, in isolated perfused cat lung (Hurtig, *et al.*), 540  
nitrous oxide, subanaesthetic concentrations in laboratory animals, comparative toxicity with enflurane, fluroxene (Stevens, *et al.*), 479
- intravenous  
droperidol, blood pressure, effects of lower abdominal aortic surgery with particular reference to the use of, in modifying the responses (Au *et al.*), 293  
etomidate, clinical trial (Famewo and Odugbesan), 35  
etomidate, effects on arterial pressure, pulse rate and preganglionic sympathetic activity in cats (Skovsted and Sapthavichaikul), 565  
etomidate, effects on haemodynamics and myocardial oxygen consumption in man (Patschke), 57  
etomidate, effect on intra-ocular pressure (Famewo, Odugbesan and Osuntokun), 712  
fentanyl, effect on haemodynamics and myocardial oxygen consumption in man (Patschke), 57  
fentanyl, urine catecholamine excretion after large doses of (Liu, *et al.*), 371  
influence on enflurane-induced central nervous system seizure activity (Darinont and Jenkins), 42  
ketamine and sodium methohexitone-nitrous oxide, in anaesthesia for dilation, evacuation and curettage (Figallo), 110  
ketamine, effect on enflurane-in-
- duced central nervous system seizure activity, 48  
ketamine, effect on regional cerebral blood flow, 717  
methohexitone, effect on enflurane-induced central nervous system seizure activity, 46  
morphine, blood pressure effects of lower abdominal aortic surgery with particular reference to the use of, in modifying the responses (Au, *et al.*), 293  
propanidid, effects on arterial pressure, pulse rate, preganglionic sympathetic activity and barostatic reflexes in the cat (Wisborg, Sapthavichaikul and Skovsted), 505  
sodium-methohexitone-nitrous oxide, compared with ketamine in anaesthesia for dilation, evacuation and curettage (Figallo, *et al.*), 110  
steroid, althesin by continuous infusion supplemented with intermittent pentazocine (Dechène), 702  
steroid, althesin, effect of, on haemodynamics and myocardial oxygen consumption in man (Patschke, *et al.*), 57  
steroid, althesin, in patients with malignant hyperthermia (Honda, *et al.*), 514  
thiopental, effect on critical oxygen tension compared with halothane (MacLeod), 609  
thiopental, effect on enflurane induced central nervous system seizure activity, 46  
thiopentone-nitrous oxide, foetal deterioration following, in the pregnant ewe (Palahniuk and Cumming), 361
- local  
clinical pharmacokinetics of (Winnie, *et al.*), 252  
etidocaine and lidocaine, compared with epidural analgesia for surgery (Raksamani and Edelist), 70  
lidocaine and etidocaine compared with epidural analgesia for surgery (Raksamani and Edelist), 70  
lidocaine, cardiovascular reactions to laryngoscopy and tracheal intubation following small and large intravenous doses of (Abou-Madi, Keszler and Yacoub), 12  
lidocaine, direct effects of circulating, on uterine blood flow and foetal well-being in the pregnant ewe (Biehl, *et al.*), 445  
lidocaine, in anaesthetic management of pheochromocytoma (El-naggar, Suerte and Rosenthal), 353

- volatile  
 diethyl-ether, reduction of hypoxic pulmonary vasoconstriction by, in isolated perfused cat lung, effect of acidosis and alkalosis (Hurtig, Tait and Sykes), 433  
 enflurane and fluroxene et subanaesthetic concentrations, toxicity compared with nitrous oxide in laboratory animals (Stevens, *et al.*), 479  
 enflurane, for paediatric outpatient anaesthesia (Steward), 603  
 enflurane-induced central nervous system seizure activity, influence of intravenous anaesthetics on (Darmont and Jenkins), 42  
 halothane, 14C labelled, effect of repeated exposure in mice (Stoyka and Havasi), 243  
 halothane, effect on critical oxygen tension compared with thiopentone (MacLeod), 609  
 halothane, effect on regional cerebral blood flow (Gil, *et al.*), 717  
 isoflurane, effects of, on arterial pressure, pulse rate, autonomic nervous activity and barostatic reflexes (Skovsted and Sapthavichaikul), 304  
 methoxyflurane, for Caesarean section, maternal and neonatal effects compared with nitrous oxide and lumbar epidural (Palahniuk, *et al.*), 586  
 Anesthesiology, future of (Gomez), 631  
 Analgesia  
 acupuncture, 77  
 postoperative, comparison of intravenous butorphanol and meperidine in patients with pain (Galloway, *et al.*), 90  
 Analgesics  
 narcotic  
     buprenorphine hydrochloride: determination of analgesic potency (Dobkin), 186  
     buprenorphine hydrochloride, double-blind evaluation of, for post-operative pain (Dobkin, Esposito and Philbin), 195  
     butorphanol and meperidine compared in patients with post-operative pain (Galloway, *et al.*), 90, clinical formula, 91  
     in anaesthesia for outpatients, recovery time compared with inhalation techniques (Enright and Pace-Florida), 618  
     meperidine and morphine as intravenous surgical premedicants (Con-  
     ner, Bellville and Katz), 559; clinical formula, 91  
     pentazocine (Talwin), as an intermittent supplement to continuous infusion of alfathesin (Dechène), 702  
 Angiotensin, see polypeptides  
 Antagonists  
 narcotic, naloxone, chemical formula, 91  
 neuromuscular relaxants  
     physostigmine reversal of postoperative somnolence (Hill, Stanley and Sentker), 707  
     physostigmine (Houghton, Letter to Editor), 525 (Brebnes), 525  
 Anticonvulsants  
     diazepam, urine catecholamine excretion after large doses of (Liu, *et al.*), 371  
 Aorta, see under arteries  
 Apnea, see Ventilation  
 Apparatus, see Equipment  
 Arteries  
     aorta, haemodynamic repercussions of clamping, use of aminophylline for correction (Pottecher and Meloche), 162  
     aorta, abdominal; haemodynamic changes due to clamping (Meloche), 20  
     aorta, lower abdominal surgery with use of morphine and droperidol, effects of, in modifying blood pressure responses (Au, *et al.*), 293  
 Atelectasis, see Complications, Lung  
 Autonomic nervous system, see Sympathetic nervous system  
 Bleeding, see Haemorrhage  
 Block, nerve, see under Anaesthetic techniques, regional  
 Blood  
     haemodynamic changes due to clamping of abdominal aorta (Meloche, *et al.*), 20  
     haemodynamics, effects of althesin, etomidate and fentanyl in man (Patschke, *et al.*), 57  
     replacement, dextran, pulmonary vascular effects of, given after haemorrhagic shock (Noble, Famewo and Garvey), 661  
 Blood pressure  
     arterial, effects of etomidate on, in cats (Skovsted and Sapthavichaikul), 565  
     arterial, effects of isoflurane on (Skovsted and Sapthavichaikul), 304  
     arterial, effect of propanidid on, in the cat (Wisborg, Sapthavichaikul and Skovsted), 505

- effects of lower abdominal aortic surgery with particular reference to morphine and droperidol in modifying the responses of (Au, et al.), 293
- peripheral resistance, effect of, on indicator-dilution curves from the central circulation of the dog (Davis, Paulsen and Frederickson), 315
- Body position, see Position

  - preganglionic sympathetic activity in the cat, effects of propanidid on (Wiborg, Sapthavichaikul and Skovsted), 505
  - sympatholytic agents
    - guanethidine, blockade of isolated limbs by intravenous (Holland, Davies and Wallace), 597
- Systolic time intervals, see under Heart
- Talwin, see under Analgesics, narcotic, pentazocine
- Technicians, anaesthetic (Wyant, Letter to Editor), 143; comment (Keszler and Bessette), 417
- Thiopental, see under Anaesthetics, intravenous
- Thiopentone-nitrous oxide, see under Anaesthetics, intravenous
- Tracheal intubation, see under Intubation
- Trimetaphan, see under Anaesthetic techniques, hypotension induced
- Urine, catecholamine excretion after large doses of fentanyl, diazepam and pancuronium (Liu, *et al.*), 371
- Uterus
- blood-flow, uterine, direct effects of circulating lidocaine on, and foetal well-being in the pregnant ewe (Biehl), 445
- Veins
- Vascular complications of dopamine, avoidance of (Stetson and Reading), 727
- Ventilation
- apnea, succinylcholine, use of serum cholesterol in (Scholler, Goedde and Benkmann), 396
  - artificial, effect on arterial carbon-dioxide (Grundy, *et al.*), 390
  - continuous positive airway pressure (CPAP) nasopharyngeal tubes, prevention of obstruction by humidification of inspired gases (Pollett and Reid), 615
  - distribution, effects of inspiratory pause (PI) during artificial ventilation in patients with acute respiratory insufficiency (Suter, *et al.*), 550
  - perfusion (ventilation-perfusion) ratio, effect of inspiratory pause on (Suter, *et al.*), 550
  - positive end-expiratory pressure, (PEEP) effects of inspiratory pause (PI) in patients with acute respiratory insufficiency during (Suter, *et al.*), 550
  - positive end-expiratory pressure, effect on lung mechanics during anaesthesia in dogs (Douglas and Finlayson), 425
  - respiratory insufficiency, effects of inspiratory pause (PI) during artificial ventilation in patients with (Suter, *et al.*), 550
  - spontaneous breathing with Bain circuit (Bain, Letter to Editor), 142
  - trans-laryngeal jetting system, for use during microlaryngeal operations (Carden, Becker and Hamood), 118
- Ventilators, see under Equipment

VOLUME 24, 1977

## CONTENTS

NUMBER 1, JANUARY 1977

Acute Epiglottitis in Children: Management of 27 Consecutive Cases With Nasotracheal Intubation, With Special Emphasis on Anaesthetic Considerations CLAUDE LEDUC, RÉJEAN LABERGE, ROGER DESJARDINS, AND GILLES PERREAU	1
Cardiovascular Reactions to Laryngoscopy and Tracheal Intubation Following Small and Large Intravenous Doses of Lidocaine M.N. ABOU-MADI, HUGO KESZLER, AND J.M. YACOUB	12
Haemodynamic Changes Due to Clamping of the Abdominal Aorta R. MELOCHE, T. POTTECHER, J. AUDET, O. DUFRESNE, AND C. LE PAGE	20
Clinical Trial of Etomidate: Preliminary Observations on a New Non-Barbiturate Induction Agent C.E. FAMEWO AND C.O. ODUGBESAN	35
A Re-Evaluation of Anticholinergic Premedication C.E. FAMEWO	39
The Influence of Intravenous Anaesthetics on Enflurane-Induced Central Nervous System Seizure Activity PAUL C. DARIMONT AND LEONARD C. JENKINS	42
Effects of Althesin, Etomidate and Fentanyl on Haemodynamics and Myocardial Oxygen Consumption in Man D. PATSCHKE, J.B. BRÜCKNER, H.J. EBERLEIN, W. HESS, J. TARNOW, AND A. WEYMAR	57
A Comparison of Etidocaine and Lidocaine in Epidural Analgesia For Surgery A. RAKSAMANI AND G. EDELST	70
Chinese Acupuncture GORDON M. WYANT AND MONIQUE CAMERLAIN	75
Comparison of Analgesia by Intravenous Butorphanol and Meperidine in Patients With Post-Operative Pain F.M. GALLOWAY, J. HRDLICKA, M. LOSADA, R.J. NOVECK, AND F.S. CARUSO	90
Porcine Malignant Hyperthermia: Role of Skeletal Muscle in Increased Oxygen Consumption GERALD A. GRONERT, J.J.A. HEFFRON, J.H. MILDE, AND R.A. THEYE	103
Anaesthesia for Dilatation, Evacuation and Curettage in Outpatients: Comparison of Subanaesthetic Doses of Ketamine and Sodium Methohexitone-Nitrous Oxide Anaesthesia EDUARDO M. FIGALLO, RAY MCKENZIE, BOONRAK TANTISIRA, RAJINDAR K. WADHWA, AND CEFRINO S. SINCHIOCO	110
An Improved Percutaneous Jetting System for Use During Microlaryngeal Operations EDWARD CARDEN, GARY BECKER, AND HASSNEY HAMOOD	118
Fluidics and Pneumatics: Principles and Applications in Anaesthesia J.D. DUFFIN	126
Letters to the Editor	142
Book Reviews	145
Obituaries	147
Meetings	149
1977 Annual Meeting, Notices	xv, xvi

NUMBER 2, MARCH 1977

The Early History of Anaesthesia in Canada: the Introduction of Ether to Upper Canada, 1847	DAVID J. STEWARD	153
The Use of Aminophylline for Correction of Haemodynamic Repercussions of Clamping of the Aorta	T. POTTÉCHER AND R. MELOCHE	162
Systolic Time Interval Changes After Aorto-Coronary Bypass	R.J. BYRICK, S.J. TEASDALE, AND P. YOUNG	175
Buprenorphine Hydrochloride: Determination of Analgesic Potency	ALLEN B. DOBKIN	186
Double-Blind Evaluation of Buprenorphine Hydrochloride For Post-Operative Pain	ALLEN B. DOBKIN, BARBARA ESPOSITO, AND CAROLE PHILBIN	195
Acute Intravenous Administration of Potassium Chloride to Furosemide Pretreated Dogs	K.C. WONG, RYOHEI KAWAMURA, MICHAEL R. HODGES, AND SHAUN P. SULLIVAN	203
Characteristics of Non-Depolarizing Neuromuscular Block: (I) Post-Junctional Block by Alpha-Bungarotoxin	CHINGMUH LEE, DENNIS CHEN, AND RONALD L. KATZ	212
Effect of Sodium Nitroprusside and Trimetaphan on Neuromuscular Transmission in the Frog	S.D. GERGIS, M.D. SOKOLL, AND J.T. RUBBO	220
Dual Action of Pancuronium on Succinylcholine Block	ANTHONY D. IVANKOVICH, NAOMI SIDELL, VINCENT J. CAIROLI, ALBERT A. DIETZ, AND RONALD F. ALBRECHT	228
The Effects of Repeated <sup>14</sup> C Halothane Exposure in Mice	W.W. STOYKA AND G. HAVASI	243
Clinical Pharmacokinetics of Local Anaesthetics	ALON P. WINNIE, DALE A. LAVALLEE, BUDDY PE SOSA, AND KHAN Z. MASUD	252
A Comparative Study of Peripherally Inserted Silicone Catheters for Parenteral Nutrition	ALLAN S. MACDONALD, SURYA K.P. MASTER, AND EMERSON A. MOFFITT	263
Rapid Intubation With Fazadinium and Suxamethonium	S. MEHTA, K. LEWIN, AND K. FIDLER	270
Considerations Anesthésiques sur l'Hypophysectomie Trans-Sphenoidale: Etude Retrospective	J. CÔTÉ ET M. ROUILLARD	275
Circulatory Monitoring Using a Carbon Dioxide Analyzer During Planned Hypotension: A Clinical Note	R.E. GREENWAY, H. HEENEMAN, AND M. KEERI-SZANTO	282
Book Reviews		286
Obituary		288
Meetings		289

NUMBER 3, MAY 1977

Blood Pressure Effects of Lower Abdominal Aortic Surgery with Particular Reference to the Use of Morphine and Droperidol in Modifying the Responses	ANTHONY S.W. AU, DAVID EVANS, RONALD CRAGO AND WILLIAM M. JONES	293
The Effects of Isoflurane on Arterial Pressure, Pulse Rate, Autonomic Nervous Activity and Barostatic Reflexes	PER SKOVSTED AND SANGUAN SAPTHAVICHAIKUL	304
The Effect of Total Peripheral Resistance on Indicator-Dilution Curves from the Central Circulation of the Dog	GUY C. DAVIS, JR., A. WILLIAM PAULSEN AND EVAN L. FREDERICKSON	315
Lung Water Estimation Using an External Sensing Catheter	J.C. KAY AND W.H. NOBLE	322
Extravascular Lung Water Accumulation in Patients Following Coronary Artery Surgery	R.J. BYRICK, J.C. KAY AND W.H. NOBLE	332
Positional Hypoxaemia Following Post-Traumatic Pulmonary Insufficiency	JONATHAN D. KATZ AND PAUL G. BARASH	346
Sodium Nitroprusside and Lidocaine in the Anaesthetic Management of Pheochromocytoma	MOUSTAFA EL-NAGGAR, ELEUERTO SUERTE AND E. ROSENTHAL	353
Foetal Deterioration Following Thiopentone-Nitrous Oxide Anaesthesia in the Pregnant Ewe	R.J. PALAHNIUK AND M. CUMMING	361
Urine Catecholamine Excretion after Large Doses of Fentanyl, Fentanyl and Diazepam, and Fentanyl, Diazepam and Pancuronium	WEN-SHIN LIU, ARUN V. BIDWAI, JUDD K. LUNN AND THEODORE H. STANLEY	371
Pulmonary Lavage in the Treatment of Alveolar Proteinosis	LIONEL BUSQUE	380
The Effect of Assisted Ventilation on Arterial Carbon Dioxide	ERNEST M. GRUNDY, M.T. SHIN, E.J. BENNETT AND K.P. PATEL	390
The Use of Serum Cholinesterase in Succinylcholine Apnoea	KARL L. SCHOLLER, HEINZ W. GOEDDE AND HEIDE-GERTRUDE BENKMANN	396
An Evaluation of the Anaesthetic Techniques Used in an Outpatient Unit	G.M. URBACH AND G. EDELST	401
The Bartlett-Edwards Incentive Spirometer: A Preliminary Assessment of Its Use in the Prevention of Atelectasis after Cardio-Pulmonary Bypass	G.D. GALE AND D.E. SANDERS	408
Letters to the Editor		417
Book Review		420
Obituary		421
Meetings		422

NUMBER 4, JULY 1977

Effect of Positive End-Expiratory Pressure on Lung Mechanics During Anaesthesia in Dogs	F.G. DOUGLAS AND D.C. FINLAYSON	425
Reduction of Hypoxic Pulmonary Vasoconstriction By Diethyl Ether in the Isolated Perfused Cat Lung: the Effect of Acidosis and Alkalosis	J. B. HURTIC, A.R. TAIT, AND M.K. SYKES	433
The Direct Effects of Circulating Lidocaine on Uterine Blood Flow and Foetal Well-Being in the Pregnant Ewe	DIANE BIEHL, SOL M. SHNIDER, GERSHON LEVINSON AND KEITH CALLENDER	445
Unexpected Excessive Bleeding During Operation: Role of Acetyl Salicylic Acid	D.W. DAVIES AND D.J. STEWARD	452
Meperidine - Halothane Interaction in Dogs	E.P. STEFFEY, R. MARTUCCI, D. HOWLAND, J.H. ASLING, AND J.H. EISELE	459
Neuromuscular Block By Circulating d-Tubocurarine Residue Following Uptake and Distribution	ELAINE YANG AND CHINGMUH LEE	468
Focal Contracture Following Injection of Succinylcholine in Patients With Peripheral Nerve Injury	CHINGMUH LEE, ELAINE YANG, AND RONALD L. KATZ	475
Comparative Toxicities of Enflurane, Fluroxene and Nitrous Oxide at Sub-anaesthetic Concentrations in Laboratory Animals	WENDELL C. STEVENS, EDMOND I. EGER, II, ANNE WHITE, CLAUDE G. BIAVA, ROBERT D. GIBBONS, AND RICHARD SHARGEL	479
Simple Deep Hypothermia For Open Heart Surgery in Infancy	REIJI WAKUSAWA, SHIGEJI SHIBATA, AND KAZUTOSHI OKADA	491
The Effects of Propanidid On Arterial Pressure, Pulse Rate, Preganglionic Sympathetic Activity and Barostatic Reflexes in the Cat	KAJ WISBORG, SANGUAN SAPTHAVICHAIKUL AND PER SKOVSTED	505
Malignant Hyperthermia and Althesin	NATSUO HONDA, KANJI KONNO, YUZO ITOHDA, MASATAKA NISHINO, SACHIKO MATSUSHIMA, SUMITAKA HASEBA AND YUZURU HONDA	514
An Unusual Cause of Ventilator Leak	STEPHEN ROLBIN	522
Letters to the Editor		525
Book Reviews		527
Meetings		529

NUMBER 5, SEPTEMBER 1977

Carbon Dioxide Output and Elimination in Children Under Anaesthesia J.A. BAIN AND W.E. SPOEREL	533
Reduction of Hypoxic Pulmonary Vasoconstriction by Nitrous Oxide Administration in the Isolated Perfused Cat Lung J.B. HURTIG, A.R. TART, L. LOH, AND M.K. SYKES	540
Effets de la pause en fin d'inspiration sur l'échange gazeux et l'hémodynamique chez des patients en ventilation mécanique PETER M. SUTER, M. BRIGLJEVIC, M. HEMMER, AND M. GEMPERLE	550
Meperidine and Morphine as Intravenous Surgical Premedicants JAMES T. CONNER, J. WELDON BELLVILLE, AND RONALD L. KATZ	559
Effects of Etomidate on Arterial Pressure, Pulse Rate, and Preganglionic Sympathetic Activity in Cats PER SKOVSTED AND SANGUAN SAPTHAVICHAIKUL	565
Peripheral Vascular and Cardiac Effects of Nitrous Oxide in the Bovine JUDD K. LUNN, WEN-SHIN LIU, THEODORE H. STANLEY, SCOTT GENTRY, AND JOHN B. ENGLISH	571
Maternal and Neonatal Effects of Methoxyflurane, Nitrous Oxide and Lumbar Epidural Anaesthesia for Caesarean Section R.J. PALAHNIUK, J. SCATLIFF, D. BIEHL, H. WIEBE, AND K. SANKARAN	586
Sympathetic Blockade of Isolated Limbs By Intravenous Guanethidine A.J.C. HOLLAND, K. H. DAVIES, AND D. H. WALLACE	597
A Trial of Enflurane for Paediatric Out-Patient Anaesthesia D.J. STEWARD	603
A Comparison of the Effects of Thiopentone and Halothane Anaesthesia On Critical Oxygen Tension B. MACLEOD	609
Prevention of Obstruction of Nasopharyngeal CPAP Tubes by Adequate Humidification of Inspired Gases H.F.L. POLLETT AND W.D. REID	615
Recovery From Anaesthesia in Outpatients: a Comparison of Narcotic and Inhalational Techniques A.C. ENRIGHT AND A. PACE-FLORIDIA	618
Letter To The Editor	623
Obituaries	624
Book Reviews	626
Meetings	628

NUMBER 6, NOVEMBER 1977

Whither Anaesthesia?	QUINTIN GOMEZ	631
Sodium Nitroprusside-Induced Hypotension and Renal Blood Flow K.M. LEIGHTON, C. BRUCE, AND B.A. MACLEOD		637
Sodium Nitroprusside: Factors Which Attenuate its Action. Studies with the Isolated Gracilis Muscle of the Dog N.A.G. TREMBLAY, D.W. DAVIES, D. KADAR, D.J. STEWARD AND G. VOLGYESI		641
Cyanide Toxicity Following Nitroprusside-Induced Hypotension DAVID AITKEN, DAVID WEST, FRANCES SMITH, WOJCIECH POZNANSKI, JOHN COWAN, JEFFREY HURTIG, ERIC PETERSON, AND BRIEN BENOIT		651
Pulmonary Vascular Effects of Acetylsalicylic Acid, Chloroquine, Dextran and Methylprednisolone Given After Haemorrhagic Shock in Dogs W.H. NOBLE, C.E. FAMEWO, AND M.B. GARVEY		661
The Caffeine Test of Isolated Human Muscle in Relation to Malignant Hyperthermia W. KALOW, B.A. BRITT, AND A. RICHTER		678
Effect of the Inhibitor of Angiotensin I Converting Enzyme On Endocrine Function and Renal Perfusion in Haemorrhagic Shock M. YAMASHITA, T. OYAMA, AND T. KUDO		695
Alfathesin By Continuous Infusion Supplemented With Intermittent Pentazocine J.P. DECHÈNE		702
Physostigmine Reversal of Postoperative Somnolence G.E. HILL, T.H. STANLEY, AND C.R. SENTKER		707
Effect of Etomidate On Intra-Ocular Pressure C.E. FAMEWO, C.O. ODUCBESAN, AND O.O. OSUNTOKUN		712
Effects of Anaesthesia, Hypercarbia and Hypocarbia on Regional Cerebral Blood Flow in the Goat K.S.L. GIL, D.J. MILETICH, R.F. ALBRECHT, AND D. VISINTINE		717
Avoidance of Vascular Complications Associated With the Use of Dopamine J.B. STETSON AND G.P. READING		727
Letters to the Editor		734
The President, Dr. Douglas E. Crowell		736
Canadian Anaesthetists' Society Prize, 1977		738
1977 Annual Meeting - Residents' Programme Prizes		739
Obituaries		740
Meetings		743
Index of Authors		747
Index of Subjects		752
Table of Contents, Volume 24		765
